Professional Experience

Invoca, Seattle, WA

09/2025 – 06/2026

Senior UX Designer

Designing conversational AI tools and agentic workflow experiences for Fortune 1000 inbound sales SAAS

- Designed and built a working AI copilot agent providing personalized, step-by-step in-platform guidance across complex workflows; integrated user context with documentation knowledge base.
- Led design of voice and SMS consumer experience for AI-powered conversational agents
- Used AI-assisted tools (Figma Make, Gemini, Claude, Cursor, NotebookLM, Gumloop, Braintrust) to build functional proofs-of-concept for complex agentic interactions and intent-based workflows.
- Created a conversational style guide for voice and text, as well as launch acceptance criteria
- Initiated an org-wide qualitative analysis framework for evaluating end-to-end AI user experience
- Launched SMS AI messaging agent

Staris AI, Seattle, WA

03/2024 – 10/2024

Product Design & Strategy (Contract)

Making LLM-based static and dynamic application testing intuitive and desirable.

- Conducted customer and user interviews to define market personae and key product opportunities.
- Collaborated with security engineers and C-Suite to establish v1 product requirements and v2 vision.
- Redesigned UI and UX with a focus on streamlined first-time-user experiences with extensibility.
- Efforts contributed to raising \$5.7m of seed investment in Jan 2025.

Providence Digital Innovation Group, Seattle, WA

08/2021 – 11/2023

Head of Design / Product Design Manager

Hired, grew, and managed a global team of 5 designers as a player-coach, supporting the incubation of multiple startup initiatives and delivering healthcare solutions for mobile, identity, and conversational AI.

- Established critique rituals, quality standards, career development frameworks, roadmaps, and staffing.
- Pitched Grace chatbot to 200+ clinicians and leaders, resulting in its launch to 2.6m patients in MyChart, reducing administrative and overall patient messaging burden.
- Led cross-functional ideation sessions, resulting in product concepts, features, and patents.
- Managed design efforts on both Providence and Swedish mobile apps, as well as a single sign-on identity management product. These were combined to launch the company Praia Health.
- Grew chatbot engagement from ~800 MAU to ~150k MAU since 2021, averaging 15m messages per year.
- Initiated and led design operations: built a multi-product Figma design system and Zeroheight style guide, unifying experience across 4+ products and reducing inconsistencies by ~95%.

Wells Fargo, Seattle, WA & San Francisco, CA**11/2018 – 07/2021****Senior Voice User Interface Designer & Senior Product Designer**

Led the design of conversational AI experiences, tools, and ML initiatives for financial services.

- Led cross-functional team in creating voice-first prototypes for mortgages.
- Designed a tool for the machine learning team, which reduced annotation time by 50%.

Samsung, San Francisco, CA**10/2014 – 09/2018****Senior Interaction Designer & UX Prototyping Engineer**

Senior Staff member working with cross-functional teams to define new product categories.

- Collaborated with the S-Voice team on new speech recognition domains and voice quality modernization.
- Designed the UX for Icon X headphones, creating a new product category of in-ear wireless headphones.
- Influenced executive decisions through by designing, prototyping, and presenting voice-first interfaces, IoT products, AR/VR, and wearable technologies.

Phenomenon, Los Angeles, CA**02/2014 – 09/2014****Production Lead & User Experience Lead (Contract)**

Led ideation, production, and UX design for the audio-centric Wilson X Basketball app.

- Won Webby, Cannes Lion, Clio Silver, Cannes Lion, and two Gold Pencils for Mobile Innovation and UX/UI.

Microsoft, Redmond, WA**09/2009 – 06/2013****Audio Lead**
